

LIGHTS-OUT INNOVATION-ON

Inhouse Event

Discover how **cutting-edge automation and robotics** empower **next-generation manufacturing** for Pharma, Biotech & Medical Devices. Be part of the future of pharma manufacturing – experience real customer projects live!

Robotized Assembly

Automated Packaging

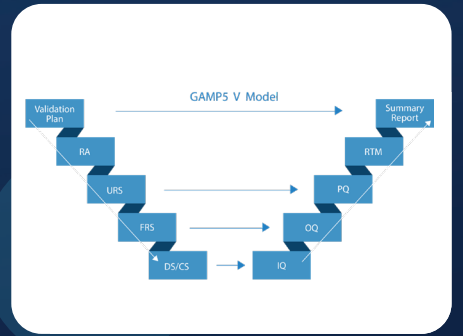

Cobot Filling

Next-level HMI & control technology

Engineering & Annex 1 lightspeed projects

Documentation & Qualification

What you will discover:

- **Live customer projects**
 - Two packaging lines for medical device components
 - Modular assembly unit for auto-injectors
 - Cobot-based cryovial filling and lab automation
- **Engineering & Annex 1 lightspeed projects**
- **Next-level HMI & control technology** – experience the simplicity and precision of a Pharmabotix system
- **Documentation & Qualification** - from traceability matrix to test plans. Discover our expertise in both machine building and full documentation.

Location, Date & Registration

- **Location** Pharmabotix AG, Schulstrasse 9, 5707 Seengen, Switzerland
- **Date** Thursday, October 23 | 09:00–17:00
Friday, October 24 | 09:00–16:00
- **Registration** <https://Lights-Out-Innovation-On-by-Pharmabotix.eventbrite.ch>
